

PROJECT OVERVIEW

CiF is pleased to announce that the Westin Hotel in Downtown Cleveland is now open for business! The 484-room luxury hotel in the heart of Cleveland's financial district is now taking reservations and providing lodging for guests.

Located adjacent to the Public Auditorium and the new Cleveland Convention Center with attached Global Center for Health Innovation, the Westin's combination of premier amenities and ideal location position the hotel for success.

WESTIN OPENING CEREMONY

During late morning on May 15th members of the Project management team, civic leaders, and others associated with the construction and operation of the new Westin - including CiF - gathered in the hotel's lobby for a ribbon cutting ceremony. The event featured speeches from several people - including the Mayor of Cleveland's Chief of Staff and the head of Cleveland's sports & tourism commission - followed by photo-op wherein Project principals symbolically cut a ribbon to signify that the Westin was now open.

URBAN FARMER CLEVELAND STEAKHOUSE

Also celebrating its Grand Opening on May 15th was the Urban Farmer Restaurant. Located on the ground floor of the Westin Hotel, Urban Farmer is a steakhouse committed to serving quality organic and locally produced foods. By selecting only the finest ingredients from local Ohio farmers, the restaurant provides patrons with food they can trust in an upscale and comfortable atmosphere.

SIGNATURE WESTIN AMENITIES

The hotel provides guests with access to a host of Westin brand services and conveniences. This includes in-room amenities such as smart TVs and extra electrical outlets as well as the signature WestinWORKOUT® Studio and full-service dining at the Urban Farmer Cleveland Steakhouse.

WESTIN INVESTOR APPROVALS AND GREEN CARDS

The USCIS began issuing I-526 approvals to Westin Project Investors, with the first approval notice arriving in January of 2014. Further good news came when the first US Green Cards were issued to a Westin Project Investor in May 2014.
